

Project: Surmont 2 CPF and FF Driven Pile Installation

Highlights

Owner: ConocoPhillips Canada (CPC)
Client / Contractor: Bantrel
Contract Value: Approx. \$39 million

Work Completed: February 2013
Region: Fort McMurray, AB
Technology/Service: Driven pipe piles

Scope

Keller was awarded a contract on CPC Surmont 2 for supply and installation of driven steel pipe piles in the Central Processing Facilities (CPF) and, based on performance, later awarded an additional scope of work to install driven steel pipe piles for the Field Facilities (FF) portion of this Steam Assisted Gravity Drainage (SAGD) expansion project.

Fast Facts

Supply and Installation of :

- 3,053 piles in the CPF
- 3,047 piles in the FF
- Pile Diameters ranged from 219mm (8 inch) to 610 mm (24 inch)

Results/Value

All work was completed on time, on budget with no rework while achieving an exceptional safety record of zero incidents over 200,000 manhours on site.
