

Project: Suncor Kamloops Tank 20002 Repairs

Highlights

Owner: Suncor
Client / Contractor: Teng
Contract Value: \$1 million

Work Completed: April 2012
Region: Kamloops, BC.
Service: Tank maintenance and repairs

Scope

The Suncor tank project in Kamloops, BC showcases Keller's attention to detail and thoroughness. Starting with foundation regrading, we also completed a floor removal and replacement, added a leak detector and liner installation, foam line installation, shell and roof nozzle upgrade and full roof and handrail installation for additional safety.
